

## Basic Streaming Package

\$1,500

### Small setup. Huge result.

---

The Basic Streaming Package delivers the same high definition stream as our Standard Packages, but keeps it simple. All it takes is one video cable and a wired or wireless internet connection to get your event broadcasting live. Connect an iPhone or iPad for easier stream controls and enhanced features, like a graphical scoreboard.

### Every accessory you'll ever need is included.

---

Since the entire setup involves just two pieces of hardware, the included durable carrying case makes it extremely portable. An extra battery, SD card, cleaning kit, crowd microphone and more ensure you will always have the tools needed to produce a great stream. Video tripod included.

As a Basic Package owner, your school will be able to quickly and easily produce live broadcasts of every event. With HSStream, Dad can stream the basketball game from work, Grandma can hear the band concert from across the country, and the community can watch the school board meeting from home. Your services fee includes a training session, tech support, a custom HSStream website, and so much more.
